

PUSHPKALA JOHN

Web Developer

+91- 9489563127 | pushpakalajohn.2@gmail.com | Github| LinkedIn| Portfolio

OBJECTIVE

Aspiring Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and React, seeking an entry-level role to apply and enhance my skills in creating user-friendly, responsive web applications. With additional knowledge in Python and machine learning algorithms, I aim to contribute to projects that combine intuitive UI with intelligent features, while continuously learning and growing in a dynamic development environment.

EDUCATION

Bachelor of Technology, Artificial Intelligence& Data Science	2020–2024
Arjun college of technology, Coimbatore (TN).	8.2CGPA
Higher Secondary	2019 – 2020
Sri Sankara Vidhyalaya Mat.Hr.Sec. School	64%
SSLC	2017 – 2018
Sri Sankara Vidhyalaya Mat.Hr.Sec. School	86%

SKILLS

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design.
- **Version Control & Collaboration:** Git, GitHub, Jira.
- **Tools & Libraries:** VS Code, React Router, Axios, Figma (basic UI interpretation).
- **Programming & Scripting:** Python (basic scripting and ML algorithm understanding).

EXPERIENCE

Freelance Frontend Developer Remote Bernacle	Dec 2024 – April 2025
<ul style="list-style-type: none">• Developed a static, responsive landing page using React and Tailwind CSS.• Converted Figma designs into clean, functional UI components.• Used Git and GitHub for version control and collaborated with clients via Jira.	
AI Trainee Internship Digital Garage	Mar 2024 – August 2024
<ul style="list-style-type: none">• Assisted in the development and implementation of machine learning models, focusing on optimizing and tuning algorithms to improve accuracy and efficiency.• Also learned about the design and deployment of deep learning architectures.	

PROJECTS

Warehouse Management System – Frontend	
Tech Stack: React, Figma, SQL, Tailwind CSS and Figma	
<ul style="list-style-type: none">• Designed and implemented the user interface for a warehouse management system to handle inventory, orders, and warehouse tasks.• Created reusable components for dashboards, forms, and product listings using React.• Collaborated using Git and GitHub for version control.	
E-commerce Website – Frontend	
Tech Stack: React and Tailwind CSS	
<ul style="list-style-type: none">• Developed a responsive e-commerce site with product pages, cart functionality, and category filters.• Integrated mock product data and implemented client-side routing with React Router.• Styled the UI with Tailwind CSS to achieve a modern look and feel.• Optimized performance and ensured cross-browser compatibility.	

CERTIFICATIONS

- Certified from Linkedin – **What is Generative AI?**
- Certified from Meta – **React JS**
- Certified from Udemy – **Full Stack Web Development**
- Certified from Naan Mudhalvan - **Full Stack Web Development**
- Attended workshop on **Full Stack Web Development** organized by Karpagam College of Engineering.
